Sounds great. I shared with OGC and our economics folks an offline email file so as to not mess up the master files and all that you were updating. So I will let you know if we get any feedback from them.

Andrew,

The Word file (Chemical Manufacturing Section 114 Component I Questions) and Excel file (Chemical Manufacturing Section 114 Component I Response_[Company]_[Facility]) on Sharepoint have been updated to address these comments. I'm considering these files as the master files.

I also uploaded a word file into the Archive folder that documents how each of your comments were addressed (just fyi).

I will make sure these changes are addressed in the backend database work we're currently doing.

Jason

Hi Jason,

Finished going through component I. Mostly reviewed the Excel file (not as much the Word file comparison, but did catch a few things). Here are my comments. Hopefully we can chat tomorrow about them. Thanks!
